Data Protection Management and Compliance

Course Objectives

This course covers the practical aspects of data protection and provides a good understanding of data protection management and compliance. It covers topics such as developing an organisational data protection strategy, implementing a data protection management programme, security of personal data and establishing the data protection function. This course is essential for Data Protection Officers (DPOs) and others who are responsible for, or contribute to, their organisation's data protection management and compliance programme. This course complements our courses on local, regional, and global data protection law.

Who should attend?

This course is essential for anyone who wishes to develop a good practical understanding of the data protection obligations of organisations and rights of individuals under the Personal Data Protection Act (PDPA).

- Data Protection Officers (DPOs) and Compliance Professionals
- Data Protection / Privacy Counsels and Corporate Counsels
- Data Scientists and Data Analysts
- Information Technology (IT) and Cybersecurity Professionals
- Human Resource (HR) Professionals
- Executives, Managers, and Staff involved in the management, collection, use or other processing of personal data

Course Facilitator

David N. Alfred is Co-head and Programme Director of Drew Academy and concurrently Co-Head of Drew & Napier's Data Protection, Privacy & Cybersecurity practice. He is also a member of the firm's Artificial Intelligence & Digital Trust practice.

David is a senior technology lawyer with over 25 years' experience encompassing legal, business, public policy and technological aspects of the digital economy, digital technology, telecommunications, and the Internet. He has particular expertise in data law and policy, digital and cyber regulation, data protection and cybersecurity. He is a strategic and analytical thinker who has worked with and advised organisations' senior executives and boards. Before joining Drew & Napier, David was Chief Counsel of

Singapore's Personal Data Protection Commission where he led its legal team and advised the Commission on all its legal affairs. This included application and enforcement of the Personal Data Protection Act 2012 (PDPA), development of advisory guidelines and other publications and cross-border aspects of data protection.

David holds an MBA from the University of Chicago and LLB and LLM degrees from the National University of Singapore. In addition to his legal qualifications, he is a qualified course developer, training facilitator and data protection professional holding the WSQ ACLP and DDDLP qualifications and the IAPP CIPP/A, CIPM and CIPT certifications. He has been recognised as a Fellow of Information Privacy by the IAPP and as a Senior Accredited Specialist in Data and Digital Economy Law by the Singapore Academy of Law.
