ABOUT DAVID

David is Director and Co-Head of Data Protection, Privacy and Cybersecurity at Drew & Napier and a member of the firm's Artificial Intelligence (AI) and Digital Trust practice. He is also Co-Head and Programme Director of the Drew Data Protection & Cybersecurity Academy.

David is a senior technology lawyer with over 25 years' experience encompassing legal, public policy, business and technological aspects of the digital economy, digital technology, telecommunications and the Internet. He has particular expertise in data law and policy, digital and cyber regulation, data protection and cybersecurity.

David has taught courses up to postgraduate level at local tertiary institutions and is a qualified corporate trainer and course developer. He has developed and delivered a range of courses relating to data protection, cybersecurity, data governance, AI regulation, digital trust and other technology and business-related topics.

Prior to joining the firm, David was the first Chief Counsel of Singapore's Personal Data Protection Commission (from 2013 to 2020). He has also worked with Singapore's Info-communications Media Development Authority and its predecessor, the Info-communications Development Authority of Singapore.

EXPERIENCE

David has extensive experience advising and acting for clients in diverse sectors, including, for example, telecommunications, information technology, media, e-commerce, banking, insurance, healthcare, retail, hospitality, and manufacturing. He has also acted as the data protection officer for various organisations including Drew & Napier itself.

Some of the matters David has advised on include the following:

- Public policy and development of data protection laws in Singapore and Brunei Darussalam, including conduct of public consultations, stakeholder engagement and competency development
- Numerous enforcement cases under Singapore's Personal Data Protection Act 2012
- Cybersecurity incident and data breach management and response
- Cybersecurity reviews and audits
- Cross-border transfers of personal data, data transfer agreements and transfer impact assessments
- Outsourcing of data processing activities
- Development of data protection policies, notices and related documentation including regional and global policies

- Development of the data protection function and competency development in data protection and cybersecurity
- Contracts for procuring or providing AI-related products and services
