Admitted to the Singapore Bar in August 2016  
T: +65 6531 2508 E: javier.yeo@drewnapier.com

## ABOUT JAVIER YEO

Javier specialises in intellectual property dispute resolution. He has acted for many clients across different industries such as the pharmaceutical, chemical and mechanical engineering as well as semiconductor industries in trademark and patent matters.

Javier is ranked a “Rising Star” for Intellectual Property for three consecutive years since 2022 by Legal 500 Asia Pacific. He was also named the regional Rising Star of the Year at the Legal 500 Southeast Asia Awards 2023. In its 2024 edition, Asian Legal Business (ALB) identified Javier as an outstanding young lawyer in the “40 under 40” survey.

Apart from his intellectual property practice, Javier has also practised in a wide array of commercial matters including company law, contract law, defamation and employment law, for both international and local clients.

Counsels that have worked with him have described him as a “*superb lawyer whose work in this complex case has been nothing short of amazing*” and was also commended for “*acquir[ing] an in-depth knowledge and understanding of the very challenging technical aspects of the disputes and of the volumes of evidence*”.

Clients have also described Javier as “*very smart, quick and efficient*” and that his “*work rate is simply outstanding*”.

## EXPERIENCE

Javier has handled many types of cases before the Singapore Courts across different areas of practice. These include numerous high-value Court matters, in particular, intellectual property disputes ranging across a wide variety of industries. Amongst his clients are well-known international brands in their respective industries.

### Intellectual Property Matters

- Successfully represented Ila Technologies Pte Ltd, an industry leader and

manufacturer of lab-grown diamonds with the largest diamond growing facility in the world, in a patent infringement suit commenced by Element Six Technologies Ltd, a subsidiary of the De Beers Group, in *Ila Technologies Pte Ltd v Element Six Technologies Limited* [2023] SGCA 5. It is safe to say that this Suit is one of the most and possibly the most complex patent infringement case that the Singapore High Court and Singapore Court of Appeal has heard.

- Acting for a Fortune 10 company in a high value patent infringement claim commenced by Salutica Allied Solutions Sdn Bhd involving Bluetooth technology. This action is part of a global patent dispute.
- Acting for KuDOS Pharmaceuticals Limited, a subsidiary of AstraZeneca, in a patent-linkage matter for the active ingredient Olaparib. This action is part of a global patent dispute.
- Acting for Singapore Airlines in a series of trademark opposition and revocation actions for its iconic “Singapore Girl” mark.
- Represented Eisai Co Ltd and its related companies in a patent linkage matter for HALAVEN, an anti-cancer medication used to treat breast cancer and liposarcoma. This is the first litigation globally in relation to HALAVEN.
- Successfully acted for a local skincare brand in a matter involving claims of passing off, copyright infringement and breach of contract. This matter engages novel issues in Singapore relating to use of well-known person’s (e.g. celebrity) portraits.
- Successfully acted for a popular local hair-removal company in a claim involving passing off and copyright infringement. This matter engages novel issues relating

to copyright infringement and passing off for interior design and style of branding.

- Represented Tanaka Electronics Singapore (Pte.) Ltd. in a Singapore High Court patent infringement action in Singapore HC/Suit No. 606/2020 in which we defended the patent infringement action. The action was part of the global patent litigation dispute with Nippon Steel Chemical & Material Co., Ltd. and Nippon Micrometal Corporation. Tanaka Electronic Singapore (Pte.) Ltd. owns a manufacturing facility in Singapore manufacturing bonding wires for semiconductors. Nippon Steel alleged that Tanaka Electronics Singapore (Pte.) Ltd. infringed Singapore Patent No. 2010038305 and prayed for, amongst others, an injunction. Tanaka Electronic Singapore (Pte.) Ltd. has denied infringement and has put in issue the validity of the asserted patent claims. The Singapore action has since been discontinued.
- Successfully acted for Uni-Drive (S) Pte Ltd in a revocation action filed by Nidec Control Techniques Limited ("Nidec"), a multinational corporate headquartered in the United Kingdom for a revocation action for trade marks.

#### **Other contentious corporate matters**

- Acted as lead counsel and successfully defended a client in a matter involving amongst others, breach of director's duties, passing off and conspiracy to injure. Javier obtained a swift victory for the client by obtaining a declaration from the Court that matters were already settled in an agreement, thereby preventing the matter from escalating further. The application for declaration dealt with the novel issue in Singapore of whether a settlement agreement could settle unknown and even fraudulent claims, as well as claims that arose after the date of settlement.
- Acted for Edge Capital Fund SP2 Pte Ltd, an asset management firm in a suit against doctors in Singapore involving the manufacture, supply and storage of mesenchymal stem cells under the new Regulations in the Health Products Act. This case involves tackling novel issues in

relation to interpretation and application of the Regulations. The case also involves breach of directors' duties, breach of contract and misrepresentation.

- Successfully represented BW Automobiles Pte Ltd in the State Courts ([2018] SGDC 189) and in the appeal to the High Court in a landmark case concerning the interpretation of named driver insurance policies.
- Represented a Singapore holding company in the business of acquiring aesthetic practices in a suit canvassing various issues including a breach of contract, minority shareholder oppression and equitable winding up pursuant to s254 of the Companies Act. The claim was in excess of SGD20m.
- Appointed as a mediator for a multi-million estate matter involving assets in various jurisdictions and successfully assisted the parties in reaching a settlement for a dispute that lasted for more than 2 years.
- Successfully acted for a landlord in a tenancy dispute, concerning issues regarding breach of contract, conspiracy to injure and piercing the corporate veil.
- Acting for an international luxury beverage chain in several defamation cases relating to articles published internationally.
- Acting for a medical research organisation in relation to breach of a collaboration agreement for the development of a vaccine for global distribution.
- Acting for clients in bankruptcy matters and debt enforcement, with debts in excess of SGD150m.
- Acting for a fund in a dispute against an international luxury wines and spirits conglomerate in matter involving inducement of breach of contract and conspiracy to injure. This matter is a cross-border matter.
